

Palauan Name: Eskeam

Scientific Name: *Quassia indica*

Family Name: Simaroubaceae

Eskeam is found in swamp forests in Palau and to some extent in riparian areas and muddy banks of channels through the upper part of the mangroves. This species is found only in Palau and the Caroline Islands but is also known from Madagascar to Malaysia. It is a medium size tree that can grow up to 20 m in height. No known uses have been reported in Palau.
