

Palauan Name: Dort

Scientific Name: *Intsia bijuga*

Family Name: Fabaceae

Dort is a large tree that grows in the limestone forests and can also be found in volcanic forests. It can grow up to 30 m in height and its trunk is about 6 to 23 cm in diameter. In Palau,

the timber is used for construction because of its durability and its resistance to termites. It's used for

beams, flooring, doors, furniture and in the past was used for bridges.
